

Carsten Gollnick took his inspiration for this ceramic fine stoneware design from the remarkable colour contrasts and structures of the Portuguese Atlantic coast.

Straight lines, pure shapes and flowing, softly undulating surfaces meet matt, rough, sandy structures.

Light sandy beige colours engage in dialogue with the very deep, shining tones of the Atlantic.

The aesthetic world of the Portuguese Atlantic beach, the border between water and land – between water and windows is his source of inspiration.

NÓTOS is a complete, vital hotelware programme which is not only perfect for presenting seafood and coastal style food.

Open fire concepts, serving trays and Asian food bowls complement each other to create a highly professional but also very casually interpreted collection.

*“ I want to produce mindful objects and collections which will enrich the user’s everyday culture. “*

Since 1997 Carsten Gollnick has been working successfully on the aesthetic improvement of object culture. More than 80 international design awards, long term collaboration with a range of companies as well as museum pieces acknowledge his attitude to design.
