

CRISTAL

As its name suggests, the Cristal collection is inspired by the rich patterns found in the most sublime crystal craftsmanship. This tactile and sophisticated collection stands out from the ordinary and makes an impressive appearance on the table.

With its beautiful reactive finish, CRISTAL NACAR is inspired by the sophisticated yet natural colors of beach shells.

Como o próprio nome sugere, a coleção Cristal é inspirada nos padrões ricos encontrados nas mais sublimes peças criadas em cristal. Uma coleção tátil e sofisticada que se destaca facilmente em qualquer mesa.

Nacar, o novo acabamento reativo da coleção CRISTAL é inspirado nas cores nacaradas das conchas da praia, transportando a coleção para um outro nível de sofisticação.

 Setais, SINTRA

The luxurious and romantic Palace of Setais in Sintra, Portugal, was selected for the photo shoot of the new Cristal Nacar collection. The architecture of the palace takes us back to the exquisite atmosphere of the 18th century: stunning ballrooms decorated with rich furnishings, tapestries, and frescos of rare beauty. Cristal Nacar, with its sophisticated details, brings this lost sense of luxury back into our world.
